Dear Sir/Madam

RE: REQUEST FOR INDEPENDENT REFERENCE

During last year I have used the services of Quattro Seal to draughtproof windows and doors in Primary Schools, Comprehensive Schools, Libraries and the Civic Centre building. In 1997 work to the value of £38,000 was carried out and in 1998 orders for £39,000 have been placed.

All of the projects were completed within the time scales set, which was particularly important with the schools as this needed to be fitted into the summer break.

The quality of workmanship is of a high standard regarding both preparation and application of the sealant, producing a significant reduction in air 'ingress'.

Comments received from building managers, caretakers etc, have praised the installers regarding their punctuality, courtesy and general attitude to the job.

Where problems have arisen, either the installer or Quattro Seal Head Office have dealt with these quickly and to my satisfaction, and I would be happy to use Quattro Seal on any future draughtproofing projects.

Yours faithfully

Brian Roberts
